Art Unit: 1655

### DETAILED ACTION

1. The reply filed on 3/13/03<sup>02 20</sup> is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant failed to elect a single polymorphism for examination as required by the further restriction requirement applicable to all groups See 37 CFR 1.111.

Applicant's election without traverse of group I, paper number 9 is acknowledged. However, this response is not fully responsive to the restriction requirement mailed 2/13/02 because the restriction requirement had a "Further Restriction Requirement Applicable to All Groups" which required applicant to elect a single polymorphism for examination. The further requirement is reiterated:

#### *Further Restriction Requirement Applicable to All Groups*

**Each group detailed above reads on more than one patentably distinct group, wherein each of the distinct group is drawn to methods for the detection of separate polymorphisms, nucleic acids comprising different polymorphic variants, linkage studies of the different polymorphisms, treatment of a patient after diagnosis using more than one polymorphism, polypeptides with distinct allelic sequences, antibodies to those polypeptides, and the use of distinct polymorphisms in bioinformatics. For example, group I above encompasses four different inventions, that is, methods for detecting each of the four different polymorphisms recited. For the elected group (of groups I-V), applicants must further elect single polymorphism for examination in the appropriate product or method claim. For example, if applicant elects group I, applicant should further elect one of the polymorphisms for examination.**

Art Unit: 1655

**Prior to allowance, non-elected subject matter will be required to be deleted from any allowable claims.**

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
